

PRODUCT SPECIFICATION REPORT

ZEP APEX CHLORFOAM 14

Economical, High Foaming, Chlorinated Detergent

DESCRIPTION

Zep Apex ChlorFoam 14 is an economical, concentrated, chlorinated, non-butyl, caustic detergent for high foam applications. Its formulation includes wetting agents, alkaline builders, high foam detergents, and corrosion inhibitors.

FEATURES

- Chlorinated
- Powerful cleaning action
- High Foaming
- Biodegradable

BENEFITS

- Provides extra cleaning in the removal of protein, blood, and stains, as well as deodorizing without the necessity of adding chlorine to the detergent solution.
- Removes dirt, grease, oil from surfaces
- Thick, stable foam clings to surfaces allowing a longer contact time.
- Contains only biodegradable detergents and wetting agents.

Caution: DO NOT use on aluminum, galvanized, magnesium, tin, or painted surfaces

APPLICATIONS

Recommended to be used in food plants, kitchens, restaurants where heavy-duty high foam cleaning is needed.

Bakeries
Poultry Plants
Restaurants and Cafeterias

Meat Packing Plants
Dairy Farms

Vegetable Processing Plants
Bottling Plants

<<<gallons>>>

Apex ChlorFoam 14 is an economical, liquid, concentrated, chlorinated, foaming, highly-alkaline cleaner recommended for use in canneries, dairies, bakeries, seafood processing plants, red meat and poultry processing plants, institutional kitchens, breweries, supermarkets, egg processing plants, and restaurants. Apex ChlorFoam 14 is effective in removing protein, blood, fats, oils and grease from a variety of surfaces including steel, stainless steel, concrete, ceramic and quarry tile. May be applied manually or through suitable foam generating equipment.

NOTE: DO NOT allow to come in contact with aluminum, zinc (galvanize), magnesium, tin or painted surfaces (unless paint removal is desired).

which is available upon request from your employer. Zep advocates limiting exposure to all chemical products. Wear splash-proof safety goggles during product use and when eye contact is possible. Wear nitrile, neoprene, natural rubber, or other resistant gloves and alkali-resistant footwear; also wear a face shield and rubber apron whenever splashing can occur. For spray applications, use product in well-ventilated areas only; open windows/doors and use exhaust fans. Remove contaminated clothing promptly and DO NOT rewear until thoroughly cleaned. After handling, wash hands thoroughly with soap and water.

DIRECTIONS:

Manual Cleaning: Dilute 1 part Apex ChlorFoam 14 with 15 to 20 parts hot water (6 to 8 oz/gallon). Spray, brush, or wipe onto surface, scrub as needed, and rinse thoroughly with water. Hot water, if available, will aid in cleaning.

Foam Cleaning: Dilute 1 part Apex ChlorFoam 14 with 15 to 20 parts hot water (6 to 8 oz/gallon). Apply as a foam through foam generating equipment onto surface to be cleaned. Allow to soak for 5-10 minutes, scrub if needed, and rinse with high pressure, hot water. Do not allow foam to dry; re-wet foam as necessary to prevent drying.

FIRST AID:
EYES: Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately.
SKIN: Immediately flush affected skin with plenty of water for at least 15 minutes. Get medical attention immediately.
INHALATION: Move exposed person to fresh air at once. Get medical attention immediately.
INGESTION: If this product is swallowed, DO NOT induce vomiting. If affected person is conscious give plenty of water to drink. Get medical attention at once.

DANGER CAUSES EYE AND SKIN BURNS

CAUSES EYE AND SKIN BURNS AND CAN CAUSE BLINDNESS. DO NOT allow product to contact skin, eyes, or clothing. DO NOT breathe vapors or spray mist. DO NOT swallow this product. Repeated exposure can have cumulative effects. Further information on the effects of overexposure is included on the Material Safety Data Sheet.

DISPOSAL AND/OR SPILL INFORMATION: As with all cleaning and maintenance procedures, run-off from the cleaning or maintenance process should be diverted to a collection vessel, or where permitted, to a sanitary sewer (consult local and state regulations) and not allowed to soak into the ground or to enter a storm sewer. If this product is spilled or contaminated and cannot be used, creating the need for disposal, absorb product on an inert absorbent material, such as Zep-O-Sorb or Zep Super Sorbent, and deposit in a clean, sealable D.C.T. specification container for disposal as a hazardous waste. Rinse area well with water.
STORAGE: Store tightly closed container in dry area at temperatures between 40°F (4°C) and 120°F (49°C).
